## Education

**10th**  
Takshashila Public School  
April 2016 - March 2017

**12th**  
Takshashila Public School  
April 2018 - March 2019

**Computer Science Engineering**  
Galgotias University  
December 2020 - May 2024

**Web Development Course**  
Masai School  
September 2024-present

## Technical Skills

- Responsive Web Design   React  
JavaScript   CSS3   HTML5  
MongoDB   Express.js   Node.js  
Git

## Achievements

**Achieved AIR 542 in Coding Ninjas World Cup Contest** ↗  
*Coding Ninjas*

**Completing Masai School SDET(Full Stack development course)**  
*Masai School*

## Certifications

**Coding world cup** ↗  
*Coding Ninjas*

**Django Developer** ↗  
*O(1) coding club*

**Python programming** ↗  
*Maangler*

# Divyam Chitransh

Frontend Developer(React)

## Professional Summary

I am an aspiring web developer with a future-driven mindset and a strong desire to collaborate within a team environment. I specialize in front-end development and have good knowledge of HTML, CSS, and JavaScript. I am enthusiastic and committed to teamwork, aiming to achieve better outcomes both personally and for the company's growth. Additionally, I am proficient in modern frameworks and technologies such as Node.js, Express.js, MongoDB, and React.js.

## Experience

**Catalysing Dreams & Beyond Pvt Ltd** | Django web development August 2023 - November 2023

- Collaborated with design, product, and backend teams to create cohesive project deliverables.
- Developed components using React.js to ensure scalable and reusable application architecture.
- Integrated server-side APIs with frontend components for seamless data exchange.

## Projects

**FaceBook Clone** [Live Demo Link](#) [Github Repo Link](#)

JavaScript   HTML5   CSS3   Responsive Web Design

- Developed a clone of Facebook using JavaScript, HTML5, and CSS3.
- Implemented responsive web design to ensure compatibility across various devices and browsers.
- Created user-friendly interfaces that closely mimic the real Facebook experience.

**File Management System** [Live Demo Link](#) [Github Repo Link](#)

JavaScript   HTML5   CSS3

- Designed and built an advanced file management system using JavaScript, HTML5, and CSS3.
- Developed scalable and reusable code to handle large file storage and retrieval efficiently.
- Implemented cross-browser functionality to ensure consistent performance on all platforms.

**Job Board Management System** [Github Repo Link](#)

JavaScript   Node.js   Express.js   MongoDB   Git

- Developed a responsive user interface using React.js, ensuring compatibility across various devices and browsers.
- Collaborated with backend components using Node.js to integrate frontend and server-side logic effectively.
- Implemented RESTful API integration to fetch and display job listings, enhancing the system's functionality.
- Optimized the application for speed and performance, resulting in improved load times and user satisfaction.
- Conducted thorough testing and debugging to ensure the reliability and stability of the job board management system.
